 Pune, Maharashtra

Full-Stack Developer with hands-on experience building production-ready web and mobile applications using **React.js**, **Next.js**, **MERN-based architectures**, and **React Native**. Strong proficiency in **JavaScript** and **TypeScript**, modern state management (**Redux**, **Zustand**), and responsive UI development with **Tailwind CSS**. Possesses a working knowledge of backend development using Node.js and Express, including REST API integration, basic authentication flows, and database interactions with MongoDB and MySQL. Known for writing clean, maintainable code and collaborating effectively to deliver reliable end-to-end features.

## PROFESSIONAL EXPERIENCE Responsibilities:

**Full Stack Developer**  
The Return Journey, Pune  
JAN 2025-JAN2026

- Developed and maintained **B2B** and **B2C web** and **mobile applications** used by multiple internal teams and external vendors, delivering reliable, responsive, cross-platform experiences across web and mobile environments
- Built and optimized core frontend modules, including end-to-end **booking workflows**, **Recent Searches**, **History**, and **Razorpay payment integration (full/partial)**, enabling seamless booking completion and reducing manual handling in the booking process
- Built a **cab booking** and vehicle onboarding module from scratch, **managing complete booking lifecycles** and validations, improving booking accuracy and workflow reliability
- **Optimized frontend performance** and **UI consistency** through component reuse and rendering improvements, reducing UI regressions and support issues

## PROJECTS

### TRJ Cabs

White-label cab booking platform enabling vendors to book, manage, and customize vehicle rides

#### Features:

- White-labeled vendor platform for managing, customizing, and booking travel itineraries across global destinations
- B2B travel platform enabling vendors to create, manage, and share customizable itineraries worldwide
- Vendor-facing travel application for itinerary management, customization, and booking across destinations
- White-label B2B solution for vendors to manage itineraries, pricing, and bookings at scale

**Tech Stack:** Nextjs | Zustand | Typescript | Tailwind | RazorPay

### TRJ Partner B2B Website

White-labeled Platform for vendors to book, manage, share and customise itineraries

#### Features:

- Built a white-label B2B itinerary management platform for vendors with sharing and **booking workflows**.
- Improved vendor efficiency with **recent search persistence**, **auto-filled inputs**, and **smart itinerary categorization**
- Enhanced usability through new discovery sections and streamlined UI/UX

**Tech Stack:** Nextjs | Typescript | Redux | Razorpay | Tailwind

## TECHNICAL SKILLS

### Languages & Frameworks

React | Nextjs | JavaScript | TypeScript |  
React Native | Node.js | Python

### Frontend & Mobile

React | Nextjs | React Native | Tailwind  
CSS | Redux | Zustand | HTML | CSS

### Backend

Node.js | Express.js | MongoDB | MySQL  
|Postman

### Tools and Platforms

Git | Jira | VS-Code | Vercel

## EDUCATION

### Full Stack Web Development

Masai School, Bengaluru | Full  
Time | (May 24 - Jan 25)

**Aryabhatta Group of Colleges** - Diploma  
in Mechanical Engineering | (May 2016 -  
Sep 2019)

### Higher Secondary Education - 12th

St. Stephen Sr. Sec. School

## CERTIFICATIONS

Full Stack Web Development Certification  
National Skill Development Certification
